Online Pharmacy Purchase Consent Form

Magley Clemson Animal Hospital wants to ensure our patients receive the safest and most effective pharmaceutical products available. However, we do understand the desire to find products at a reduced cost. Several out of state online pharmacies can sell products at a slightly lower cost than is possible for us, but we strive to stock and sell them at a competitive price. Please read the following information so you can make an informed decision before purchasing products from other sources:

1. **All** guarantees by the product manufacturer **are null and void** if their products are purchased through any sources other than a veterinarian. If there is a failure in effectiveness, you will be solely responsible for the cost of treatment.
2. Our products come directly from the manufacturer and are guaranteed.
3. We are not aware of where these products are being distributed from, such as being brought from overseas and not in the original packaging, therefore we cannot be sure the product is as stated.

If you choose to purchase your products from another source other than us, we will write you a written prescription with the following guidelines:

1. An exam and diagnostics will have to be done within a necessary time frame.
2. A current and up to date heartworm test must be done with a negative result.
3. If there is a problem with the product and/or shipment, you must handle it with the pharmacy directly.
4. We are **NOT** responsible for the loss and/or damages of your written prescriptions and/or products and will **NOT** be able to replace the written prescription and/or products if a loss or damage occurs.

I understand the concerns of buying from an online source and will not hold Magley Clemson Animal Hospital liable for any issues that arise from these purchased products.
